## **DETAILED ACTION**

### ***Response to Amendment***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/19/2007 has been entered. Claims 2-3 and 5-10 have been canceled. Claims 1, 10-11, 14, and 20 have been amended. Claims 1-20 are pending in the application.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The claims 1-9 and 12-20, set forth in the amended claimed invention of 3/19/2007, are allowed. It is not obvious from the prior art of record with regards to the claim limitations set forth in the base claim 1 and the base claim 20.

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 10-11 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

**Claim 11:**

Claim 11 recites a computer program on a computer readable medium comprising program code. Claim 11 seeks patent protection for the computer program. Computer program per se is neither computer components nor statutory process. Thus, claim 11 is non-statutory.

**Claim 10:**

Claim 10 employs a computer readable program as part of a seemingly patentable process. However, claim 10 in reality seeks patent protection for the computer program. Computer program per se is neither computer components nor statutory process. Thus, claim 10 is non-statutory.
